## TECHNOLOGY CONSERVATION GROUP

---

April 29, 2011

### FOR IMMEDIATE RELEASE

### TECHNOLOGY CONSERVATION GROUP, INC. INITIATES LOCAL OUTREACH PROGRAM

Lecanto, FL –**TECHNOLOGY CONSERVATION GROUP, INC.** has created a local outreach program to support and educate the community on the benefits of recycling. Its flagship project, an annual \$5,000 scholarship, was recently awarded to a Citrus County high school student for scoring the highest in an essay contest on the topic of recycling.

In an effort to encourage the public to recycle and raise awareness of the harmful materials that end up in landfills when electronics are disposed of improperly, Technology Conservation Group, Inc. will visit schools to educate children, distribute educational recycling materials, and hold facility tours for local schools.

#### About TECHNOLOGY CONSERVATION GROUP

Founded in 1996 TECHNOLOGY CONSERVATION GROUP specializes in asset disposition and recycling of waste stream commodities generated through the manufacturing of electronics and electronic components. TECHNOLOGY CONSERVATION GROUP recycles, reuses and/or remarkets virtually 100% of its intake. TECHNOLOGY CONSERVATION GROUP holds a multi-site certification to ISO 14001:2004 standards, adheres to all levels of environmental regulations, and respects design security without sacrificing returns. TECHNOLOGY CONSERVATION GROUP serves an international customer base through its strategically located facilities throughout North America, Mexico, United Kingdom, Israel and India.
