TECHNOLOGY CONSERVATION GROUP

October 5, 2010

FOR IMMEDIATE RELEASE

TECHNOLOGY CONSERVATION GROUP, INC. EXPANDS WORKFORCE

Lecanto, FL – TECHNOLOGY CONSERVATION GROUP, INC. has added Quality, Environmental Health & Safety (QEHS) staff to its Florida, Kentucky and Israel facilities in addition to Business Development (BD) Account Representatives in the United Kingdom and Israel. There is also growth in adding General Counsel to the corporate facility.

Neil Lukey joined the company as domestic EHS Manager in January 2010. Neil has a BSc (Honors) in Environmental Health from the University of Salford, UK. He is currently working on a Masters degree in Public Health – Occupational Safety at the University of South Florida. Neil has 18 years experience in the field of Environmental Health & Safety.

Michele Lieberman represents the legal interests of Technology Conservation Group as General Counsel. Michele has a Bachelors degree from the University of South Florida and her Juris Doctor from Stetson University College of Law (Honors). Michele is board certified in City, County and Local government law.

Craig Daniels represents TCG in the QEHS role for the Louisville, Kentucky facility. Craig has a B.S. in Biology and an A.A. in Natural Sciences. He has more than 10 years experience in EHS roles including environmental engineering projects such as Title V, VOC reduction, Storm Water management, recycling and hazardous waste disposal.

Gal Levin has joined the team in Israel in roles of both QEHS and Business Development. He has a BSc in Chemical Engineering, a Masters degree in Business Administration and is currently a PHD student in Environmental Engineering.

Tien Nguyen is the newest employee in the United Kingdom facility and will represent Business Development needs in Europe. He has over 10 years experience in his field. He has a degree in Business Development and Account Management.

TECHNOLOGY CONSERVATION GROUP, INC. continues to expand and implement new programs worldwide. The addition of these high caliber employees will support the company's implementation of various environmental programs as well as enhanced service offerings for customers.

About TECHNOLOGY CONSERVATION GROUP

Founded in 1996 TECHNOLOGY CONSERVATION GROUP specializes in asset disposition and recycling of waste stream commodities generated through the manufacturing of electronics and electronic components. TECHNOLOGY CONSERVATION GROUP recycles, reuses and/or remarkets virtually 100% of its intake. TECHNOLOGY CONSERVATION GROUP holds a multi-site certification to ISO 14001:2004 standards, adheres to all levels of environmental regulations, and respects design security without sacrificing returns. TECHNOLOGY CONSERVATION GROUP serves an international customer base through its strategically located facilities throughout North America, Mexico, Brazil, United Kingdom, Israel and India.
