TECHNOLOGY CONSERVATION GROUP

Technology Conservation Group, Inc. (TCG) Facilities Certified Multi-Site ISO 14001 Certified

Lecanto, FL., July 28, 2008 – Continuing a reputation of excellence in environmental management of electronics recycling, Technology Conservation Group, Inc. has received the ISO 14001 Certification for its 3 US, 2 Mexico and Brazil facilities.

The ISO 14001 Standard is an internationally accepted specification for environmental management systems created by the International Organization for Standardization to help organizations minimize how their operations affect the environment and comply with related laws, regulations and requirements. Technology Conservation Group, Inc. has an established Environmental Management System in place to ensure that all facilities maintain the highest quality and excellence in electronics recycling initiatives. For more information on TCG's environmental management system, please visit our website at www.tcgrecycling.com

About Technology Conservation Group, Inc.

Technology Conservation Group, Inc. is a total recycler of electronic scrap, by-products and other components related to the manufacturing of technological products. TCG will process electronics equipment or components for reuse or recycling. If recycling through resale is not a viable option, destruction initiatives can be formulated. TCG works with its customers to tailor an avenue that meets company's needs and allows for a greater revenue return.
